(3) *Payment instructions.* (i) When a contract line item is funded by multiple accounting classification citations, the contracting officer shall provide adequate instructions in section G (Contract Administration Data), under the heading "Payment Instructions for Multiple Accounting Classification Citations," to permit the paying office to charge the accounting classification citations assigned to that contract line item (see 204.7104-1(a)) in a manner that reflects the performance of work on the contract. If additional accounting classification citations are subsequently added, the payment instructions must be modified to include the additional accounting classification citations.

(ii) Payment instructions shall provide a methodology for the paying office to assign payments to the appropriate accounting classification citation(s), based on anticipated contract work performance. The method established should be consistent with the reasons for the establishment of the line items. The payment method may be based upon a unique distribution profile devised to reflect how the funds represented by each of the accounting classification citations support contract performance. Payment methods that direct that payments be made from the earliest available fiscal year funding sources, or that provide for proration across accounting classification citations assigned to the line item, or a combination thereof, may be used if that methodology reasonably reflects how each of the accounting classification citations supports contract performance.
